EXECUTIVE SUMMARY

Over the past 8 years, AMA-UPRM has become a testament to hard work, dedication, and continuous growth. Since our chapter's reintroduction to the campus community, we have steadily advanced from being ranked among the Top 25 chapters in 2022, to the Top 20 in 2023, and finally securing a place in the Top 15 in 2024. This progress reflects the passion and commitment of our members, as we remain focused on elevating our chapter and achieving goals that once seemed out of reach. Our dedication to professional development and creating an inclusive environment continues to drive our success and this can be evidenced through our efforts during the 2024-2025 academic year.

This year, we made significant strides in expanding our impact, hosting **over 45 events** and engaging more than **1,000 participants**. We also created connections with globally recognized companies such as **Burger King, The American Cancer Society, Bacardi, and Coca-Cola**, allowing our members to gain invaluable insights into the ever-evolving marketing industry. These collaborations have broadened our perspective, offering firsthand knowledge of how leading brands adapt to global markets. We've also facilitated **3 certification** opportunities on Email marketing, AI in Marketing, and Digital Marketing to over 20 students and achieved a total of **93 currently active memberships**. Additionally, our community service initiatives have evolved to support not only people in need but also animals and nature, reflecting our commitment to social responsibility on all its scales.

Our chapter has also prioritized fostering unity within the business administration community. In this academic year, we successfully partnered with **9 other student associations**, creating a cooperative environment where mutual support and shared growth are emphasized. Additionally, we collaborated with other AMA chapters both locally and nationally, including the **AMA-UW Whitewater** and its president, **Rafael Alvarez**. These collaborations have strengthened our network and reinforced the spirit of collaboration across campus. This inclusive approach ensures that everyone feels welcomed, valued, and encouraged to contribute to the success of our community.

None of these accomplishments would have been possible without the support of our university, faculty, and mentor, Dr. Edgar Soto, whose guidance has been instrumental in shaping our chapter's su[illegible]. We also extend our gratitude to our board members, all AMA-UPRM members, and other student associ[illegible] whose contributions have been crucial to our growth.

As we look ahead, we are more determined than ever to continue breaking barriers and reach[illegible] new milestones, always guided by the values of professionalism, inclusivity, and an unwaverin[illegible] commitment to growth. With this strong foundation, we will continue to soar to even greater heights in the future. It has been a true honor and privilege to serve as the AMA-UPRM president for the 2024-2025 academic year.

ANNUAL PLAN

GOAL: Work together as a team to accomplish the proposed goals for the year.

RESULTS: The Chapter Plan (2024-2025) and past Annual Plan (2023-2024) were used as benchmarks while maintaining the previously stated goals. New activities were added and analyzed to decide whether our efforts fell short, met, or exceeded expectations. Additionally, we selected the Top 10 and Top 5 Annual Plans (2023-2024) as benchmarks for further improvement.

YEARLY EVENT PLANNER

GOAL: Create and update a yearly event calendar with all of the activities that are scheduled throughout the academic year and make it available to all E-Board members through our Google Drive so that everyone can stay updated on all our events and when they are scheduled to be happening.

RESULTS: At the beginning of the academic year, the calendar was developed with the possible activities to be carried out and as confirmation from resources came in, the calendar was updated with a more specific description of the activity. The calendar also had to be revised at various times due to the changes imposed by the university.

MONTHLY ACTIVITIES REPORT

GOAL: Send a digital report every month throughout the academic year with all of the activities that are taking place on campus to the Department of Student Affairs, which is in charge of overseeing the activities student associations have on campus grounds.

RESULTS: We kept updating the standardized digital report format which improved the organization and transparency of association activities. There were a total of **45+ activities** reported separated by month and contained information on date, attendance, speakers and topics discussed which strengthened communication with the Department of Student Affairs.

SHARED GOOGLE DRIVE

GOAL: To store all the information about the chapter in Google Drive so the E-board members and the advisor can have an easy and organized way to access it.

RESULTS: The shared drive enabled every E-Board member and mentor to quickly access and locate pertinent information. The drive contains an estimated total of **200+ documents**, **580+ activity pictures,** and **100+ activity videos** all divided into: Administrative, Community Service, Financial, Publicity, Professional Development, and E-board teams.
